

PRODUCT

Stainless Steel Trolley

TECHNICAL DATASHEET

DESCRIPTION

Manufactured from high-quality stainless steel.

Rugged construction made from two tubular steel bar push handles, Ø 25 mm, with welded deep drawn shelves with elevated perimeter flange in-between. Deposit surface with large radii for easy cleaning, lowered by approx. 10 mm in contrary to the perimeter flange. Shelves are beveled by 35 mm all over, with flat safety return to the inside and sound absorbing lining.

The trolley is protected from damage by four disc bumpers which are fixed directly above the castors. Disc bumpers are made from elastic and shock resistant plastic material. If necessary they can be exchanged easily by releasing the castors. Corrosion-protected and maintenance-free castors. Housings made from zinc-chrome plated steel, solid castor made from impact-proof, grease-proof plastic, tires from thermoplastic rubber. 4 swivel castors, Ø 125 mm, 2 with brake. Optionally and for additional price the trolleys can also be equipped with 2 fixed and 2 swivel castors.

FEATURES

- Two shelves
- 304 grade stainless steel
- 40kg payload per shelf
- 590mm gap between shelves
- 4 swivel castors, two braked
- Non-marking wheel
- BZP frame

Number of shelves	2
Shelf dimensions in mm	800 x 500
Load per unit area / shelf	40kg
Chassis	4 swivel castors, 2 of them with brake, Ø 125 mm
Total load capacity	80kg
Net weight	11kg
External dimensions in mm (W x D x H)	895 x 595 x 950
