

# Cleanroom Essentials Product Catalog

Integrity Cleanroom is part of the Ant Group, an established and respected supplier of static control products and cleanroom production consumables for over 35 years.

Integrity Cleanroom offers an extensive range of high-quality cleanroom consumables engineered and developed to meet your requirements and ISO quality standards. With an established product range and an unrivalled customer service ethos, our consumables have been applied in the medical, automotive, defense, aerospace and electronics industries.

Our distribution centres span North America, Europe and Asia, giving a truly global platform for delivering time-critical solutions.

# GLOVES & ACCESSORIES

Our range of gloves and accessories have all been selected to ensure the safety of you and others.

The range includes our new brand PRINCIPLE which are recognised for their high level of protection, reliability and comfort.

Rigorous testing ensures the cleanroom gloves, which include features such as added finger grips and extended cuffs, are well-matched to a broad range of industries.

# PRINCIPLE Sterile Latex Gloves

PRINCIPLE Sterile Latex Gloves are hand specific, with a longer length beaded cuff specifically designed for extra protection. The textured palm surface and enhanced grip makes these sterile latex gloves ideal for handling delicate items. Pack Qty: 200 pairs.

## Need ESD safe clothing?

Antistatic clothing is an essential part of many electronic production environments, as well as laboratories, clinical environments, and precision engineering environments. It is a vital aid in an ESD protected area. Our ESD clothing range includes lab coats, shirts, waistcoats and fleeces.

To see our full range of ESD clothing and workwear, head over to our sister company, Antistat, via the QR code.

# Permanent Garments

Suitable for ISO 14644-1 Class 5, GMP grade A, B, C and D environments, and antistatic control conditions. Constructed from static dissipative, non-linting, ESD grid fabric - 98gsm/m<sup>2</sup> - 99% polyester and 1% antistatic fabric. Integrity can manufacture permanent garments as standard or bespoke depending on the customers requirements. These products can be sterilised by gamma irradiation.

## Integrity Permanent Coverall

Mandarin collar with adjustable neck closure

AVAILABLE IN WHITE, SKY BLUE OR NAVY

Non-linting seams throughout

Zip front closure

Adjustable wrists with studs

Comfortable, breathable and durable

Adjustable ankles with studs

### OPTIONAL EXTRAS

- Knitted Cuffs
- Lycra Cuffs (not suitable for Irradiated Garments)
- Elasticated Ankles
- Elasticated Cuffs
- Zip closure
- Stud closure

### Available with a hood

We offer this coverall with a hood. For more information, scan the QR code.

# Integrity Permanent Lab Coat

## FEATURES & BENEFITS

- Stud/zip front, mandarin collar and stud cuff
- Sealed/encapsulated edges to all main panels
- All seams twin needled/thread monofilament
- 8-12 stitches per inch
- Concealed stud closing
- Studs are metal with stainless steel facings
- All tapes are polyester - pre-autoclaved
- Raglan sleeves
- All stress points are bartacked
- Available in sizes S to 2XL

## OPTIONAL EXTRAS

- Knitted Cuffs
- Lycra Cuffs (not suitable for Irradiated Garments)
- Elasticated Ankles
- Elasticated Cuffs
- Zip closure
- Stud closure

Minimum order qty: 5

AVAILABLE  
IN WHITE,  
SKY BLUE  
OR NAVY

# Integrity Permanent Lab Hood and Shoulders

## FEATURES & BENEFITS

- Suitable for use in both sterile and non-sterile environments
- Sealed/encapsulated edges to all main panels
- Seams are twin needled
- Thread is monofilament 8-12 stitches per inch
- Studs are metal with stainless steel facings
- Tapes are polyester, pre-autoclaved
- Generous cape to allow failsafe seal
- Stud to fit masks
- Available in sizes S to 2XL

## OPTIONAL EXTRAS

- Acoustic vents adjustment
- Slit openings to accommodate spectacles
- Tape fasten at neck

Minimum order qty: 5

# Integrity Permanent Shoes and Gaiters

Our shoes and gaiters have been developed to provide comfort and safety within cleanroom environments. The lint-free detachable ESD gaiter is easy to attach to the shoe with a zip, and can be fitted to a range of footwear styles to suit most environments. The gaiters can be laundered within a standard cleanroom laundry process.

## FEATURES & BENEFITS

- Lint-free ESD fabric
- Can be cleanroom laundered
- Gaiters available in white or blue
- Safety toe caps

# Integrity Permanent Over Boots

These over boots are manufactured using a lightweight fabric with 99% polyester filament yarn and 1% polyester carbon compound filament yarn. This provides an excellent combination of comfort and protection. Gaiter can be sterilised by gamma irradiation (excludes shoes).

## OPTIONAL EXTRAS

- Unique snap fasten over bridge
- Tie tapes at calf and ankle
- Toggle adjust at calf
- Pre-autoclaved tapes
- Highest quality monofilament thread
- Overlapping and coverstitching of hose to sole – reduces shedding

# Integrity CPE Non-Woven Anti-Slip Shoe Covers

Quality non-woven overshoes with a CPE deeply embossed sole and elasticated edges. Intended to be used for low risk applications. Widely used in the food industry.

**FEATURES & BENEFITS**

- Manufactured from non-woven with a CPE sole
- No elastic ties on bundles to respect food safety regulations
- White/blue
- Elasticated edges and heat-sealed
- CPE deeply embossed for non-slip use

PRODUCT CODE	LENGTH	PACK QTY
603-4020	17.5"	1000
603-0063	16"	1000

# Integrity Standard Non-Woven Spunbond Polypropylene Shoe Covers

**FEATURES & BENEFITS**

- Critical environment compatible (Class 10,000)
- Product code and lot number traceable
- Applications: cleanrooms, nurseries, hospitals and laboratories
- Color: blue
- Material: non-woven spunbond polypropylene, 40gsm

## Are you gowning correctly for your cleanroom?

Whether you are new to cleanrooms or want to refresh your knowledge, our garment guide is designed to help you navigate the requirements and best practice for each classification.

# CLEANROOM WIPES

Cleanroom wipes are among the most important consumables in a controlled environment. Our cleanroom wipes effectively remove contaminants, particles, and any residual material in critical manufacturing & controlled environments.

These are the perfect tools for wiping any surface in a cleanroom, including walls, machinery, fixtures, transport carts, or any other production materials.

# Integrity Polyester / Cellulose Dry Wipes

The non-woven polycell is a hydroentangled 45% polyester and 55% cellulose non-woven wipe designed for applications that require the unique combination of superior strength and exceptional absorbency. This cleanroom wipe is a perfect wiping material for spill control and general purpose wiping.

**FEATURES & BENEFITS**

- Combines the strength of polyester with the absorbency of long cellulose fibres
- Cleanroom processed and packaged to reduce particles
- Smooth, highly sorbent and durable
- Works well with IPA and other solvents
- 68gsm
- Sterilised by gamma irradiation (product 600-0530)

# Integrity Microfibre Dry Wipes

140gsm microfibre wipe constructed from continuous filament micro denier polyester. These strong filaments have a high yarn-to-dust contact surface area, ensuring excellent wiping efficiency. Furthermore, its wedge-shaped cross-section acts as a squeegee for superior contact with the surface to be cleaned, generating excellent absorbency and particle entrapment.

**FEATURES & BENEFITS**

- Laser sealed edges for ultra low lint
- Good absorbency and wiping efficiency
- High chemical resistance
- Ideal for sensitive surfaces in the optical industry
- ISO 4 compatible

PRODUCT CODE	SIZE	PACK QTY
600-0205	9" x 9"	100

# Integrity 100% Polyester Wipes

The heavy weight laser sealed edged polyester dry wipes are a double knit 100% continuous-filament polyester. All four edges are laser cut and sealed to prevent particle and fibre release.

FEATURES & BENEFITS	
•	Ultra low lint and particulate level
•	Good absorbency and wiping efficiency
•	Resists abrasion under rigorous use
•	Solvent safe, double-bagged and vacuum cleanroom packed

120GSM VERSION - LIGHTWEIGHT

# Integrity Tacky Cloth Wipes

Integrity Tacky Cloth Wipes are 100% bleached cotton, coated with a non-wax solvent-free tackifier and will not transfer onto hands or surfaces. A long shelf life of up to one year if kept in the original packaging. Medium tack level. Wipes are packaged individually.

FEATURES & BENEFITS	
•	100% bleached cotton
•	Non-wax solvent-free tackifier
•	Will not transfer onto hands or surfaces
•	Medium tack level and individually packed
•	Boeing approved

PRODUCT CODE	SIZE	PACK QTY
600-0013	16" x 20"	144

# Integrity Pre-Saturated Laser Sealed Wipes

Integrity wipes are 100% continuous filament polyester fabric Pre-saturated with blended 70% semiconductor grade IPA (isopropyl alcohol) and 30% deionized water (DI).

They are packed in a resealable zip-lock bag for easier access while preserving cleanliness and reducing solvent evaporation.

FEATURES & BENEFITS	
•	Laser sealed edge for reduced fiber contamination
•	The pre-wet solution increases cleaning efficiency and cleaning protocol consistency
•	Pre-wetted with specified IPA/DI water to achieve optimum 38% saturation level
•	100% continuous filament, double-knit polyester fiber
•	Vacuum packaged
•	135 gsm   Non-sterile

PRODUCT CODE	SIZE	PACK QTY
601-4200	9" x 9"	150 (2 x 75)

# Integrity 100% Polyester ESD Wipes

Static dissipative low linting dry wipe suitable for esd safe areas.

FEATURES & BENEFITS	
•	Composition: polyester with single side conductive fibre woven.
•	Color: white wipes with black conductive fiber
•	Weight: 140gsm ± 5gsm
•	Resistivity: 10 <sup>6</sup> ohms
•	Absorbency capacity: ≥ 308 ml/m <sup>2</sup>
•	Absorbency rate: ≤ 1 sec.
•	Class 10,000

PRODUCT CODE	SIZE	PACK QTY
601-9002	9" x 9"	150

# Integrity Low Linting Perforated Roll

A smooth, highly absorbent and durable large perforated sheet, for use on general equipment. Suited to wrap and wipe downs and chemically compatible with common cleaning and disinfectant solutions. It is suitable for use in class 100 cleanrooms. Low extraction levels and particle counts allow for use in laboratories, electronic assembly etc. It has the ability to be autoclaved.

PRODUCT CODE	SHEET SIZE	PACK QTY
600-0010	10.6" x 15"	1 Roll

## Do you know there is a technique to get the most out of each wipe?

Folding wipes during the cleaning process gets up to 8x more use out of each wipe.

It is important to fold wipes precisely and correctly to not only get the best out of each wipe but also avoid unnecessary cleanroom contamination.

Our step-by-step wipe folding guide is clear, easy to follow and saves money by making each pack of wipes last longer.

Follow the QR code to download yours now.

# CLEANING

Effective control in minimising contamination within any cleanroom environment is critical.

Manufactured to conform to ISO classifications, our cleaning systems, mopping equipment and disposable solutions are designed to offer high-quality performance, construction and reliability.

# Integrity ESD Swabs

These swabs have a compact and firm handle with a round internal core providing stable support in cleaning small and confined areas. ESD Swabs are free from organic contaminants such as silicone, amide and phthalate esters. They feature very low non-volatile residue (NVR), ion content and particle generation. Our Swabs are excellent in cleaning static sensitive components.

Pack Qty: 500

## FEATURES & BENEFITS

- Free from silicone, amide and DOP
- Low in particles, ion content and non-volatile residue
- ESD safe compact handle and thermally bonded foam head
- High solvent capacity, compact and non-abrasive tip - 10mm in size
- Compatible with most common solvents
- ESD characteristics:  $10^{10}$  ohms/sq

# Integrity II Mopping System

Designed for small area cleaning and disinfecting, Integrity II Mopping Systems' unique bucket-in-bucket concept isolates soiled contaminants from cleaning and disinfecting agents. The swivel mop frame delivers continual surface contact at any angle and is accurately balanced and non-flipping. Stainless steel wringer exerts and distributes pressure evenly over the whole mop head for precise moisture control.

PRODUCT CODE	COLOUR
610-0004	Red
610-0005	White
610-0003	Blue

# Integrity Triple Bucket System

Integrity triple bucket mopping system is a three (15L) bucket configurations. Durable, lightweight stainless steel cart with high-temperature resistant polypropylene buckets. Integrity triple bucket mopping system cart has four 3" castors, one that locks easily with the touch of your foot. Stainless steel mop frame and adjustable polymer handle included.

PRODUCT CODE	COLOUR
610-0020	Blue
610-0021	Red
610-0022	White
610-0023	Green
610-0024	Yellow

# Integrity Mop Frame Hardware

Exclusive swivel mop frame, made of high-grade stainless steel, can be manoeuvred onto floors, walls, ceilings, baseboards and confined areas such as corners or stairs where conventional string mops are notoriously inefficient. Low profiled mop frame for easy and efficient cleaning under fixtures or other hard to reach surfaces. Also permits mopping in an “S” motion, collecting solid particles during use. This mop frame delivers continual surface contact at any angle and is accurately balanced for non-flipping, swivel also locks into any position for maximum contact pressure. A quick squeeze releases the frame-locking mechanism, enabling contaminated mop or sponge head to be replaced.

### FEATURES & BENEFITS

- Low profile
- High-grade stainless steel
- Ideal for floors, walls, ceilings, baseboards and confined areas

PRODUCT CODE	SIZE
600-1007	15 1/2" x 4" x 5 3/4"

High grade stainless steel

# Integrity Adjustable Mop Handle

### FEATURES & BENEFITS

- Easy to clean
- Compatible with gamma, ETO and autoclave sterilisation
- Lightweight
- Non-sterile

PRODUCT CODE	SIZE	PACK QTY
600-1008	34" - 62" x 1"	1

# Integrity Tacky Roller Extension Pole 4'- 8'

### FEATURES & BENEFITS

- Easy to use hand and pole attachments
- Perfect for cleaning walls, floors, ceilings and hard-to-reach areas
- For use with Integrity film or foam rollers
- Non-sterile

PRODUCT CODE	SIZE	PACK QTY
600-0426	48" - 96"	1

# Integrity Disposable Mop Head

Ideal for spill control, cleaning and disinfecting of controlled environments. The non-woven cellulose polyester is a hydroentangled 55% cellulose and 45% polyester, giving superior strength and exceptional absorbency.

FEATURES & BENEFITS
<ul style="list-style-type: none"> <li>• Can be used on floors, walls and ceilings</li> <li>• To be used in conjunction with M10 Foam</li> <li>• Sponge mop</li> <li>• Available in sterile format by gamma irradiation</li> <li>• Size: 15 3/4" x 5"</li> </ul>

600-0199	6 (minimum order)

# Integrity Polyester Mop Cover with Snaps

This launderable mop cover is made from 100% polyester, designed for use in combination with foam sponge mop. High absorbency and low particle generation during cleaning / disinfecting make it suitable for critical environments.

## FEATURES & BENEFITS

- Can be used on floors, walls and ceilings
- Complies with RoHS Directive 2002/95/EC
- Launderable
- To be used in conjunction with Integrity Foam Sponge Mop
- Available in sterile format by gamma irradiation
- Perfect for cleanrooms, laboratories and any other dust/dirt free environment
- Biotechnology and pharmaceutical industries and other non-critical environments

# Integrity Cleanroom Film Rollers

**FEATURES & BENEFITS**

- Each sheet consists of .0015" thick low density
- 100% polyethylene, coated with a water based adhesive
- Each roll has a 100% polyethylene covering which is .003" thick
- Adhesive level (water based acrylic) of sheet is 12 oz per inch with stainless steel method according to PSTC-1 (pressure sensitive tape council)

PRODUCT CODE	SIZE	QUANTITY
600-0419	9"	1
600-0421	18"	1

Roller handle not included

# FLOORING & ADHESIVE MATTING

Adhesive matting can be used in high traffic areas and main entrances to effectively capture dirt, germs and dust from foot-traffic and equipment wheels before they enter the controlled environment. Ideally suited for cleanroom entrances, laboratories and hospitals. Peel-off sheets eliminate the need for messy cleaning and make it easy to maintain a clean surface.

# Integrity Contamination Control Mats

Our adhesive mats are a multi-layered clean-fill full adhesive layered cleanroom mat that captures dirt and dust from foot traffic and equipment wheels before entering a controlled environment.

Pack Qty: 30 sheets per mat, 4 mats per case.

## FEATURES & BENEFITS

- Peel-off sheets eliminate the need for messy cleaning and make it easy to maintain a clean surface to the tacky mat
- Smooth, effective surface is not damaged by shoes, boots or trolley wheels
- Numbered corner tabs for easy tracking of remaining sheets
- Suitable for cleanrooms, laboratories and any other controlled environment
- Ideal for aerospace, biotechnology, laser optics and pharmaceutical
- Custom sizes available upon request

FEATURES & BENEFITS
<ul style="list-style-type: none"> <li>• Peel-off sheets eliminate the need for messy cleaning and make it easy to maintain a clean surface</li> <li>• The smooth, effective surface is not damaged by shoes, booties or cartwheels</li> <li>• Numbered corner tabs for easy tracking of remaining sheets</li> <li>• Above 90% microbial disinfection rate</li> <li>• Perfect for cleanrooms, laboratories and any other dust/dirt free environment</li> <li>• Aerospace, biotechnology, laser optics, pharmaceutical</li> </ul>

## Integrity Mat Frame

These frames provide a uniform, effective base for adhering tack mats securely, while permitting easy removal of the last sheet. They also enhance the appearance of mats. Frames are held in place by a non-skid base.

The frames consist of a sloping 3" (76mm) anodized aluminium edge, with an additional 1" (25mm) inner edge which the mat sits on within the frame. A plastic base is permanently secured for rigidity and performance.

Mat frames are available for all sizes of tack mats; the width and length are each 6" (152mm) greater than those of the corresponding sticky mat. Overall height is 0.625" (16mm).

### FOR YOUR INFORMATION

**Ensure you step on the tack mat positioned outside your cleanroom on your way into it.**

- 1 Remove strip to expose the new layer by lifting each corner keeping debris on the used layer
- 2 Take a minimum of three steps when using the tack mat

FEATURES & BENEFITS
<ul style="list-style-type: none"> <li>• Requires no maintenance</li> <li>• Non-skid base</li> <li>• Available in a variety of sizes</li> </ul>

# PACKAGING

A gloved hand is shown holding a pair of surgical forceps. The background is a cleanroom environment with blue bottles and a blue surface. The text is overlaid on the right side of the image.

Our range of cleanroom packaging ensures that products can be securely packaged, shipped and opened within their sterile environments. The special materials used adhere to contamination control guidelines, and some are also suitable for use in EPAs.

We have listed our two best-sellers here, but we do carry a broader range, so please contact the team if you need something which isn't included here.

# CLEANROOM STATIONERY

Integrity Cleanroom range of paper and stationery products have been designed and manufactured to record information within protected and sterile environments, minimising the risks of contamination. With a variety of cleanroom paper options, colours and competitive pricing, we can accommodate any customer requirements.

# Integrity Cleanroom Lined Notebook

## FEATURES & BENEFITS

- Durable clean image cleanroom 80 gsm paper
- Low-sodium inks printed
- 50 sheets per book
- Excellent chemical resistance material.
- High-density polypropylene material which offers impregnated antistatic properties
- Round corners construction to prevent tearing of gloves by sharp edges

## COVERS

- High-density polypropylene material which offer impregnated antistatic properties
- Precision cut with round edge corners to prevent tearing of gloves
- Excellent chemical resistance material

## PAPER

- Durable clean image cleanroom paper
- Low-sodium inks printed
- 50 sheets per book

PRODUCT CODE	SIZE	TYPE

607-4002	8.5" x 11"	Side spiral bound

# Integrity Cleanroom Pens

12  
PER PACK

## FEATURES & BENEFITS

### Barrel:

- Barrel is made of high-density polypropylene
- Construction features a clip design

### Ink:

- Ballpoint Cleanroom pen, processed in ISO5 cleanroom, low sodium, and low chloride
- Low heavy metals
- Non-smearing permanent ink
- Double poly-packed with cleanroom bags
- Cleaned and packed in controlled (ISO 5) cleanroom environment

### High-Density Polypropylene Barrel:

- Chemical resistance material, compatible with IPA
- Low-outgassing and low-particulate generation material to further reduce the concern on potential contamination issues

### Low Heavy Metal Pen Ink:

- Compatible with most of the cleanroom papers and labels without any smearing
- Low sodium & low chloride level to address contamination concern
- Low heavy metals level meeting RoHS Directive 2002/95/EC

PRODUCT CODE	COLOR	ASEPTIC

# Integrity Cleanroom Technical Paper

## FEATURES & BENEFITS

- Engineered for critical environments
- Excellent IPA resistant material
- Compatible with most inks in writing without smearing
- Ultra low ionic contamination
- Ultra low particle and fiber generation
- Excellent heat resistant material
- RoHS compliant
- Available sterile by gamma Irradiation
- Lot number traceable
- Note taking
- Laser printing and photocopies
- Form & logsheet

# SUPPLIES & FURNITURE

Cleanroom furniture is an essential component of any controlled environment where cleanliness and contaminations control are critical. It helps to maintain a clean, sterile and environment, ensuring that the products manufactured in such environments meet the highest standards of quality and safety.

# Integrity Waste Sack Holder

Stainless steel, free-standing, open frame waste bag holder without lid. The solid 304 grade stainless steel construction allows for easy cleaning and is super tough. The holder is supplied with tough clamping bands to hold the waste bag securely. Designed to hold up to 75 litres of waste.

**PRODUCT CODE** 612-0010

# Integrity Sterile ESD Waste Sacks

**PRODUCT CODE** 612-0011

# PORTABLE CLEAN TENT

The Integrity Portable Clean Tent is an innovative design concept in cleanroom technology. Intended for users that require temporary cleanroom facilities, clean storage facilities or portability for on-site work, the Integrity CleanTent covers most user requirements at a low capital cost.

# Integrity Portable Clean Tent

The Integrity Portable Clean Tent works on an air system of a horizontal laminar flow principle, exhausting through user-controlled zip vents in both the work cabin and gowning room. The FFU is mounted on top of a 1" box sectional frame and fixed to the tent via a specially designed skirt. It is fitted with a ground sheet made from anti-static reinforced tryoll with a 6" skirt to create a tough durable base unit.

## FEATURES & BENEFITS

- Gowning area plus full cleanroom
- High quality PVC construction
- Innovative design concept
- Positive air pressure supplied by filtered fan units
- HEPA Class 100/ ISO 5 filter
- Fans powered by 240v standard mains plug. 12vDC inverter available separately to allow the air system to run from a battery

## OPTIONAL EXTRAS

- Pass through facility
- Hard flooring
- Emergency UPS
- Pole structure
- Step over bench
- Cleanroom work station benches
- Flight case
- Installation and accreditation
